

#1 in
Basement & Kitchen
Remodeling

Who We Are

Property ReVision is a local design/build firm that specializes in basement and kitchen renovations. Our company was launched by two engineers with a vision to provide a more professional and fun remodeling experience. We're a dynamic team with decades of combined experience in the industry, bringing expertise, creativity, and a fresh perspective to every project. Our team consists of in-house designers, dedicated project managers, skilled carpenters and tradesmen—all focused on creating amazing customer experiences. With us, you'll have a single team guiding you seamlessly from beginning to end, eliminating any uncertainties about who you're working with.

Quality

Our highest priority on every project is the quality of the work we provide.

Professional

We are a reliable, trustworthy contractor that utilizes technology to improve the overall project experience

Communication

We provide clear, timely, and consistent communication throughout the project

Your Vision, Our Expertise

The Property ReVision Experience is designed with our clients at the center, ensuring a seamless experience from start to finish. We are very transparent with our clients and really listen to our customers to understand their needs and preferences rather than push our ideas. To enhance our communication, we use a software called CoConstruct to help track material selections, budget, schedule and correspondence. Our clients can access this information anytime on their computer, tablet or phone!

We guarantee your project will be completed on time or we'll pay you!

Basements

Basements today hold a ton of potential for expanding your home's functional living space. We love finishing basements because it is the one space in your home that most often provides the greatest return on investment to renovate.

Design

Design is a critical phase of any renovation. Our design services are included with all of our projects! The design team is dedicated to bringing all the finish elements of your project together for a masterful finish.

Kitchens

The kitchen has become a central hub of activity in the home. Whether it's a place for meal prep, eating with family, hosting a gathering, or helping kids with homework, today's kitchens are open, have lots of storage, and look amazing!

Our Trusted Partners

At Property ReVision, we believe that building exceptional homes requires collaboration with the best in the business. That's why we partner with a carefully selected group of trusted companies, each bringing their expertise to every project.

Zuern Building Products

Zuern Building Products supplies a full line of building materials to professional builders, remodelers, and homeowners. Since 1953, we've been family-owned and operated. We take pride in our tradition of providing high quality building materials and valuable services to our customers. We are "Building on Service!"
